

DEFENSE LOGISTICS & COMPLIANCE

15 YEARS OF SERVICE. 6,000+ DELIVERIES. ZERO BROKEN PROMISES.

Under the Graco Supply Company brand, GracoRoberts provides end-to-end supply chain management of specialty chemicals for defense and military operations. Our deep partnerships with engineers, manufacturers, and end-users deliver critical materials with expert support, ensuring aircraft readiness and national defense.

With a strong focus on confidentiality, communication, and compliance, we help reduce costs, ensure on-time delivery, and maintain mission-critical quality.

GracoRoberts is proud to be among the less than 1% of the entire Defense Industrial Base to achieve DoD CMMC Level II Certification, earning a perfect score of 110. This rigorous certification underscores our unwavering commitment to data security, compliance, and continuous operational excellence—future-proofing our global cybersecurity leadership and reinforcing the trust placed in us by our defense customers.

100% focus on confidentiality, communication, and trust:

- » **QUALITY CONTROL** - verify specification compliance; address and resolve quality issues when they arise
- » **AVAILABILITY** - manage inventory and suppliers to ensure timely access to mission critical materials and competitive pricing
- » **COMPLIANCE** - with all federal regulations including DFARS, ITAR, Cyber Security, SSP, POA&M, NIST, and DoD CMMC Level II Certification to ensure sensitive materials and proprietary information remain secure

COMMITMENT TO QUALITY AND SERVICE

GracoRoberts and Resin Formulators are fully qualified to design, manufacture, and distribute products to a variety of industries. We are independently certified to three rigorous international quality standards: ISO 9001:2015, AS9100 (Rev. D) and AS9120 (Rev. B). To verify compliance with the requirements of these certifications, we engage in routine on-site examinations, self-reviews, and audits of our processes.

That, coupled with our standing as the only distributor/manufacturer to guarantee 100% inspection of every order from the point-of-entry to the point-of-shipment, ensures that the necessary controls are in place.

Our customers also benefit from our in-house capabilities which include:

- » Distribution
- » Custom Formulation
- » Advanced Material Lab Testing
- » Specialty Packaging
- » Custom-Quantity Composites
- » Intermix Paint Services
- » Vendor Managed Inventory

KEY PARTNERS AND BRANDS

CASE STUDIES

COST REDUCTIONS WITH A FOCUS ON QUALITY

A confidential aerospace defense company sought a new distribution partner when they were faced with the stresses of managing multiple suppliers, various shelf-life controls, issues with paperwork accuracy, different shipping points, and inconsistent quality control methods.

Graco Supply Company provided a distribution and proprietary information agreement and became the customer's complete solution for ordering, receiving, handling, stocking, and shipping sensitive materials.

After more than 15 years of partnership, Graco Supply Company has shipped nearly 2 million pounds of material without any missed shipments. With a laser-sharp focus on quality, supply chain solutions, and turnkey project management, we have what it takes to meet and exceed your goals.

SPECIALTY PACKAGING FOR SUCCESS

An aerospace and defense company was notified that the adhesive product they use on their production line was only available in a 55-gallon drum. Downpacking the product in-house into the desired dispensing amounts would've been a timely and expensive process, as that was not the company's core skill set – it would have inevitably delayed their production line, increased waste, and created inconsistencies. The customer was also challenged with maintaining shelf life and the physical properties of its specialty chemicals.

This aerospace company enlisted GracoRoberts' specialty packaging services to repack product into 4 oz kits, and seal and label each bottle as required. Our in-house chemist recommended nitrogen-purging the bottles before, during, and after the product was filled into the kit to preserve maximum shelf life. As a last step in the consultation process, GracoRoberts' team worked with the aerospace company and product manufacturer to facilitate the addition of blue dye to the product material, making the application process easier and more efficient for our customer.
