

Cleaning Products for Aerospace & Industrial Markets

Clean counts most

Why Contec?

Reasons to choose Contec for your critical cleaning needs

Contec's customer-first approach and commitment to quality and innovation bring effective solutions to the most intensive manufacturing environments. Our innovative product line of dry wipes, gloves, presaturated wipes with various solvents and more shows our commitment to cleanliness for many industries around the world. Through proven expertise and side-by-side support, we build confidence and trust into every relationship.

Innovation: As a long-established leader in custom designed products for specific applications, many of our products were developed at customer requests. We take pride in developing innovative products that not only deliver outstanding performance but are cost-effective for our customers. We were the first to introduce presaturated wipes to automotive manufacturers to improve their process and reduce their VOC emissions. We continually rise to meet and exceed customer expectations by delivering solutions to their contamination control challenges.

Support: Our success would not be possible without the support our team provides. Contec has an experienced sales team who have helped customers through various types of challenges. Contec industry experts provide unmatched technical training and product assistance.

Our customers benefit from personalized service and fast, efficient sample and order turn around.

Quality: Both Contec manufacturing facilities are ISO 9001:2015 registered. As a vertically integrated manufacturer, Contec controls more of the manufacturing process than any of our competitors. We invite you to come visit our manufacturing facilities and find out for yourself the quality built into the products we make.

Broad Capability and Product Line: Our extensive industrial product line includes knitted wipes, woven and nonwoven wipes, presaturated wipes and mopping systems for industrial environments. In fact, we have the widest variety of presaturated wipes and wall mopping systems in the industry. Contact your sales representative and ask for a product sample. Our Samples Department takes care of both standard and custom product orders.

At Contec, Clean Counts Most.

Product Line

Originally developed by Contec as a safer, more efficient way to utilize solvents and wipes, **PROSAT® Presaturated Wipe** and **SATWIPES® Solvent Wiping System** are a convenient solution for many critical cleaning applications. For years, hand-cleaning processes utilized rags or shop towels and loose solvent containers, i.e., squeeze bottles, spray bottles, pails and plunger cans. Quite often, hazardous solvents are dispensed from gallon cans or drums directly onto rags. Contec's PROSAT and SATWIPES Wipes are the better alternative.

Many industries are being required by governmental regulatory agencies to reduce the amount of solvents that evaporate and are released into the atmosphere during manufacturing and assembly. Hand wiping is one of several major ways that solvent emissions are released. Presaturated wipes are an effective way to reduce solvent emissions during wiping tasks while increasing operator safety and improving the quality of the finished product.

The biggest difference between Contec's solvent wiping systems and presaturated wipes is solvent control and wiping consistency. Wipes are evenly saturated; the same amount of solvent is released every time an operator wipes a part. Additionally, our wiping material substrates are first-quality nonwoven and knitted fabrics, not rags or shop towels.

Contec's PROSAT Presaturated Wipes and SATWIPES Solvent Wiping System consist of presaturated wipes dispensed from resealable pouches or durable, reusable canisters. Custom engineered to meet your needs, a variety of fabric substrates, pouches, and canisters are available. Wipes of various sizes can be saturated with your choice of solvents and blends. Ideal for surface preparation prior to paint, sealant or adhesive bonding applications, as well as composite surface wiping, Contec's presaturated wipes are the ultimate solvent wiping tool.

Durable, abrasion-resistant **Knitted Polyester Wipes** from Contec are laundered and packaged in our cleanroom laundry facility. These wipes are available vacuum sealed in stacks or bulk packaging. Many can be manufactured in custom sizes and shapes. Contec wipes are excellent for use on rough surfaces and for applications involving solvents, such as composite solvent wiping and when an exceptionally clean wipe is needed for critical cleaning applications.

Our knitted wipes are also available saturated with IPA and other solvents as PROSAT® Presaturated Wipes; please call your sales representative for more information.

Nonwoven Wipe fabrics are made of fibers that are not "held together" in a traditional sense, i.e., knitted or woven. They are constructed by mechanical entangling or bonding the fibers. Nonwoven fabrics can be made from polyester, cellulose, rayon, nylon, aramids and other fibers. Each fiber type has a particular strength or characteristic that makes it suitable for various environments and applications.

For example, polyester provides durability, chemical compatibility and relative cleanliness; while cellulose and rayon provide superior sorbency. Blends of these fibers can offer synergistic functions, such as good durability, sorbency and liquid release. Contec offers several nonwovens fabrics for various cleaning applications.

Microfiber Wipes are made using the latest technology. The microfibers used are triangular in shape instead of round and are 300 times smaller than cotton fibers. These microfibers act like thousands of tiny squeegees that easily remove residues and dirt on a surface, without solvent. The result is incredible cleaning that uses far less pressure and effort than conventional products. They are excellent for removal and retention of particles and fibers, and applications involving solvents such as wiping composite surfaces. Our microfiber products are relaunderable.

Some **Tack Cloths** contain volatile organic compounds (VOCs), water, oils, thinners and other inferior materials. Those cloths can be inconsistent in tack and may even stiffen or dry out as water, thin oils and waxes evaporate. Solvents, oils and waxes can leave invisible residues that may react with a finish causing marring and other coating defects. VOCs may present a regulatory burden, as well as a potential hazard to health and safety. Tack cloths from Contec are VOC-free.

Contec® Mopping Systems are an ideal way to clean floors as well as clean spills from solvents, oils, and waxes. Mops are available in a variety of ways to best fit any application. From string mops to disposable microfiber, mopping solutions are available for any cleaning challenge.

- Perforated rolls with self-closing lids help to prevent wipes from drying out
- Solvent specific color-coded labeling for easy solvent identification
- Reusable dispenser reduces solvent handling
- Different sizes and wipe quantities available for various customer needs

SATWIPES®

Solvent Wiping System

Presaturated nonwoven wipes in a canister

Product information

Contec's SATWIPES® Solvent Wiping System consists of nonwoven presaturated wipes dispensed from a center-pull roll in a reusable canister. A variety of fabrics, canisters and solvents are available. All fabrics, canisters, pouches and lids have been proven to withstand contact with the harshest of solvents. To preserve product integrity, SATWIPES rolls are packaged in specially designed foil pouches, which are opened and loaded into sturdy SATWIPES canisters. Wipes can be saturated with many different solvents and blends. Various solvents are available including IPA, IPA/DI water blends, acetone, MEK, MPK, and naphtha.

SATWIPES are tailored to specific tasks in your facility. This ensures that the right size wipe with the correct amount of solvent is used each time. Durable reusable canister with self-closing lid reduces waste, solvent use and VOCs.

Meets current revision of specification AMS3819.

PROSAT® Presaturated Wipes

Meltblown polypropylene with low particles and fibers

Product information

Manufactured from meltblown polypropylene, these PROSAT® Presaturated Wipes offer exceptional cleanliness. They are low in nonvolatile residues as well as particles and fibers. Saturated with a blend of IPA and deionized water, these wipes are an excellent choice for general surface cleaning where fast drying times are desired. The use of presaturated wipes provides maximum process control. Presaturated wipes reduce VOC emissions and solvent use up to 35% compared to spraying. PROSAT Presaturated Wipes are provided in convenient and easy to use peel and reseal pouches.

Contec offers presaturated knitted wipes in multiple of sizes and pack-out configurations using a variety of different solvents. The wipe edges are sealed in a proprietary process to prevent linting/fibers during use.

- Presaturated with isopropyl alcohol and deionized water means its an excellent choice when fast drying times are required
- Low in nonvolatile residue as well as particles and fibers making it ideal for multiple applications
- Reduces VOC emissions compared to spraying

Part No.	Description	Size	Packaging
PS-911	PROSAT Meltblown Polypropylene Wipes Presaturated with 70% IPA/30% DI water	9" x 11" (230 x 280 mm)	30/pouch; 50 pouches/case
PS-PP-8515	PROSAT Meltblown Polypropylene Wipes Presaturated with 85% IPA/15% DI water	11" x 17" (280 x 430 mm)	50/pouch; 20 pouches/case

PSQT1295**	PROSAT Quilted® Knit Polyester Wipes Presaturated with 100% Acetone	12" x 12" (305 x 305 mm)	10/pouch; 12 pouches/case
Additional SATWIPES Parts			
SAT-C3-8515	SATWIPES® Sigma™ Wipes Presaturated with 85% IPA/15% DI water	6" x 9" (150 x 230 mm)	100/roll; 12 rolls/case + 1 canister
SWNW0020	PROSAT Meltblown Polypropylene Wipes Presaturated with 70% IPA/30% DI water	6" x 9" (150 x 230 mm)	100/roll; 18 rolls/case
SWPP0003	PROSAT Meltblown Polypropylene Wipes Presaturated with 70% IPA/30% DI water	6" x 9" (150 x 230 mm)	150/roll; 18 rolls/case

*Canisters sold separately. Ask your sales representative for details.

**Meets spec AMS3819

- Most sorbent sealed edge wipe
- Extremely low in both particles and fibers reducing possibility of contamination
- Strong fabric is abrasion and chemical resistant
- Excellent sorbency with solvents

Quiltec® I Wipes

2-ply quilted polyester wipes

Product information

Quiltec® I Wipes offer the highest sorptive capacity of any sealed edge wipe available. It is manufactured using two layers of knitted polyester fabric that are laminated together to form a stronger, more adsorbent wipe. Additional fluid is captured within the quilted pockets between the fabric layers, increasing the sorbent capacity.

Quiltec I Wipes have more than twice the adsorbent capacity of a single layer wipe. Meets current revision of specification AMS3819.

Part No.	Description	Size	Packaging
QT1-99	Quiltec I Wipes Flat stacked	9" x 9" (230 x 230 mm)	100/bag; 10 bags/case
QT1-99B	Quiltec I Wipes Bulk	9" x 9" (230 x 230 mm)	150/bag; 6 bags/case
QT1-1212	Quiltec I Wipes Flat stacked	12" x 12" (305 x 305 mm)	100/bag; 5 bags/case
QT1-1212/100	Quiltec I Wipes Bulk	12" x 12" (305 x 305 mm)	100/bag; 5 bags/case

- Laundered knitted 100% polyester fabric for extremely low levels of particles and fibers
- Soft edge is ideal for use on surfaces which are vulnerable to scratching
- 100% knitted polyester is compatible with many solvents
- Durable fabric is abrasion and chemical resistant

Polynit Wipes

100% textured polyester no-run interlock knit wipe

Product information

Polynit Wipes are made of 100% knitted textured polyester with heat sealed edges or knife-cut edges for a very soft wipe. The soft edge is ideal for use on surfaces which are vulnerable to scratching. The heat sealed edge prevents release of fibers. Polyester wipes are chemical resistant and exceptionally low in particles and fibers. An interlock knit creates a durable fabric, the addition of a periodic additional stitch of a no-run interlock knit prevents the fabric unraveling creating an even more durable fabric with strong edges.

Part No.	Description	Size	Packaging
PN-99B	Polynit Wipes Bulk	9" x 9" (230 x 230 mm)	300/bag; 4 bags/case
PN-1212B	Polynit Wipes Bulk	12" x 12" (305 x 305 mm)	150/bag; 4 bags/case
PNHS-99B	Polynit Wipes Bulk	9" x 9" (230 x 230 mm)	300/bag; 4 bags/case
PNHS-1212B	Polynit Wipes Bulk	12" x 12" (305 x 305 mm)	75/bag; 10 bags/case

Polywipe-C Wipes

Lightweight 100% polyester interlock knit wipe

Product information

Polywipe-C Wipes are made from a lightweight 100% knitted polyester that is knife cut to create a soft edge. The soft edge is ideal for use on surfaces which are vulnerable to scratching. The wipe is chemical resistant and exceptionally low in particles and extractable residue making it ideal for critical cleaning.

Meets current revision of specification AMS3819.

Part No.	Description	Size	Packaging
PC-99	Polywipe-C wipe Flat stacked	9" x 9" (230 x 230 mm)	150/bag; 12 bags/case
PC-99B	Polywipe-C wipe Bulk	9" x 9" (230 x 230 mm)	300/bag; 5 bags/case
PC-1212	Polywipe-C wipe Flat stacked	12" x 12" (305 x 305 mm)	75/bag; 10 bags/case

- Soft edges are ideal for surfaces vulnerable to scratching
- Low in particles and fibers for critical environments
- Good sorbency makes it compatible with solvents

Sontara® AC™ Wipes

General purpose, low-lint wipes

Product information

Sontara® AC™ Aircraft Wipes leave surfaces clean because they are extremely low-linting. They are specially engineered to resist snagging on metal parts and corners. That's why it's superior to paper wipes, which snag and tear—leaving lint behind. Sontara AC also outperforms cheesecloth, which can leave strings behind when it snags on a rivet.

Meets current revision of specification AMS3819.

Part No.	Description	Size	Packaging
AC99	Sontara AC Aircraft Wipes Flat Stacked	9" x 9" (230 x 230 mm)	100/bag; 10 bags/case
AC9165	Sontara AC Aircraft Wipes Pop-up box	9" x 16.5" (230 x 419 mm)	100/box; 8 boxes/case
AC12165	Sontara AC Aircraft Wipes Pop-up box	12" x 16.5" (305 x 330 mm)	250/box; 1 box/case
AC1212	Sontara AC Aircraft Wipes Flat stacked	12" x 12" (305 x 305 mm)	100/pack; 10 packs/box
AC1213	Sontara AC Aircraft Wipes Quarter folded	12" x 13" (305 x 330 mm)	50/pack; 10 packs/box
AW99	TuffStuff™ Heavy Duty Wipes Flat stacked	8.75" x 8.75" (222 x 222 mm)	100/bag; 10 bags/case
RZ1217	RayZorb Wipes Quarter folded	12" x 17" (305 x 430 mm)	50/bag; 12 bags/case

- Hydroentangled nonwoven wipes are strong and durable without the use of binders
- Medium and heavy duty wipes available to allows user to match the ideal wipe for the specific application
- Offers strength wet or dry, no residues or binders left behind
- Highly sorbent without the use of surfactants

- Hydroentangled nonwoven wipes are strong and durable without the use of binders
- Medium and heavy duty wipes available to allow user to match the ideal wipe for the specific application
- Offers strength wet or dry, no residues or binders left behind
- Highly sorbent without the use of surfactants

- Strong and durable
- Excellent sorbency
- Lightly creped to provide a soft feel

TuffStuff™ Wipes

Polyester/cellulose critical task wipes

Product information

TuffStuff™ Wipes are high quality critical task wipes. Available in light, medium and heavy duty, these wipes are solvent resistant and maintain their strength even when wet. TuffStuff Wipes offer exceptional durability and cleanliness. TuffStuff Wipes are available in multiple sizes, weights, and packaging configurations to meet various customer needs.

The expanded range includes TuffSat™, consisting of heavy-duty dry wipes, quarter folded in a tub that can be saturated with cleaning solution. This versatile option allows wipes to be customized with the correct cleaning solution for a specific environment.

Part No.	Description	Size	Packaging
TSWC0917	TuffStuff Heavy Duty Wipes Pop-up dispenser box	9" x 16.5" (230 x 420 mm)	100/box; 8 boxes/case
TSGA1213B	TuffStuff Wipes, Quarter folded, blue	12" x 13" (305 x 330 mm)	50/bag; 20 bags/case
TSWC1214	TuffStuff Heavy Duty Wipes Perfed-roll-in dispenser box	12" x 13" (305 x 330 mm)	500/roll; 1 roll/case
TSWC1217	TuffStuff Heavy Duty Wipes Double pop-up dispenser box	12" x 17" (305 x 430 mm)	125/box; 2 boxes/case
TSWT1217	TuffStuff Heavy Duty Wipes Quarter folded	12" x 17" (305 x 430 mm)	50/bag; 18 bags/case
TSWC0100IN	TuffStuff Workstation Wipes Interleaved, Dispenser Bag	9" x 16.5" (230 x 420 mm)	100/bag; 9 bags/case
TSCN0001	TuffSat Dispenser Tub for TSWT1217	-	4/case

Sontara® Multipurpose Shop Towels

Durable, absorbent, low-linting towel

Product information

Sontara® Multipurpose Shop Towels offer strength, absorbency and versatility with exceptional performance. The towels are lightly creped for a soft feel. They are available quarter folded, and in single or double pop-up dispenser boxes.

Part No.	Description	Size	Packaging
MP1213BG	Sontara Multipurpose Shop Towels, blue, quarter folded	12" x 13" (305 x 330 mm)	50/bag; 18 bags/case
MP15165WT	Sontara Multipurpose Shop Towels, white, textured, flat stacked	15" x 16.5" (380 x 420 mm)	300/case

Thunderbuff™ Wipes

Silicone-free nylon/polyester microfiber wipe

Product information

Thunderbuff™ Wipes are silicone-free, terry-style woven wipes made of nylon/polyester microfiber. The keys to the incredible performance of this microfiber are the size, shape, and composition of the fibers used to make the threads of the cloth. Thunderbuff Wipes effortlessly remove both oil-based and water-based residues and dirt from surfaces.

Part No.	Description	Size	Packaging
LWTB0001	Thunderbuff Wipes Green, quarter folded	16" x 16" (406 x 406 mm)	10/bag; 4 bags/case
LWTB0001/100	Thunderbuff Wipes Green, bulk	16" x 16" (406 x 406 mm)	100/bag; 1 bag/case
LWTB0006	Thunderbuff Wipes White, quarter folded	12" x 12" (305 x 305 mm)	10/bag; 6 bags/case
LWTB0006/150	Thunderbuff Wipes White, bulk	12" x 12" (305 x 305 mm)	150/bag; 1 bag/case

- Designed for polishing exterior surfaces in automotive manufacturing
- Ideal for cleaning prior to application of side trim or other moldings
- Effortlessly removes both oil-based and water-based residues and dirt from surfaces

Anticon® Gold Sorb™ Wipes

Polyester microfiber super low-linting wipes

Product information

Anticon® Gold Sorb™ Wipes are a unique wipe which combines the performance of a microfiber yarn with that of a polyester yarn to create a wipe with superior wiping and sorptive characteristics. The proprietary sealed edges of these wipes allow the use of 100% of the wipe for cleaning without the worry of harming delicate surfaces. Anticon Gold Sorb Wipes have no abrasive borders, making them particularly suitable for cleaning sensitive components. These wipes are cleanroom laundered.

Part No.	Description	Size	Packaging
492238-958	Anticon Gold Sorb Wipes Sealed edge polyester, flat stacked	12" x 12" (305 x 305 mm)	100/bag; 4 bags/case
492238-959	Anticon Gold Sorb Wipes Sealed edge polyester, bulk	12" x 12" (305 x 305 mm)	100/bag; 4 bags/case

- Unique microfiber provides superior residue and particle removal even when dry
- Sealed edges to reduce particle and fiber generation
- High sorptive capacity and fast adsorption rate for superior spill control
- Manufactured from unique microfiber yarn which provides cleaner performance than other common microfiber wipes

- Apertured surface texture
- Pressure sensitive tack formulation
- Minimum levels of tack transfer

Tax-Fre® Tack Cloth

Nonwoven tack cloth

Product information

The Tax-Fre® nonwoven tack cloth has been specifically engineered to provide excellent contamination removal from surfaces without sticking, grabbing, or transferring tack adhesive to the surface. A unique polymer adhesive gives the Tax-Fre cloth a soft, dry feeling, free of tackiness, or stiffness similar to the adhesive used on removable sticky notes.

Part No.	Description	Size	Packaging
TAX-FRE	Tax-Fre Tack Cloth Flat stacked	10" x 18" (250 x 460 mm)	100/bag; 4 bags/case

- Sealed edges to reduce fibers and snags
- Industrial tack applications
- No VOCs
- Will not dry out or harden
- Non-toxic
- Solvent, silicone and wax-free

Polyester Tack Cloth

Knitted, sealed edge polyester tack cloth

Product information

Polyester Tack Cloth is developed with knitted selvaged edges and heat sealed cuts to reduce snags and fibers. The Tack Cloth is manufactured using a high temperature and pressure tack 'thermoset' impregnation process, which significantly reduces invisible residue build-up that may react with other finishing materials to cause coating defects such as marring and streaking.

20 fabric is 100% polyester knit low nap fabric and has smooth texture on both sides of the cloth.

80 fabric is 100% polyester knit higher nap fabric. It has a textured, higher nap feel on both sides of the cloth. The higher pile of the filaments increases the dirt collecting surface and improves cloth penetration into surface irregularities during wiping.

Custom sizes are available.

Part No.	Description	Size	Packaging
BS20CS	Polyester Tack Cloth 20 fabric, bulk	9" x 18" (230 x 460 mm)	100/bag; 5 bags/case
BS80CB-12	Polyester Tack Cloth 80 fabric, bulk	9" x 12" (230 x 305 mm)	100/bag; 4 bags/case
BS80-16	Polyester Tack Cloth 80 fabric, bulk	9" x 16" (230 x 406 mm)	100/bag; 4 bags/case
BS80CB	Polyester Tack Cloth 80 fabric, bulk	9" x 18" (230 x 460 mm)	100/bag; 4 bags/case

SATWIPE® Hand Scrubber Towels

Hand and general purpose cleaning wipes

Product information

SATWIPE® Hand Scrubber Towels are a superior value hand cleaner/towel combination. The powerful solution does not contain any solvents which dry out your skin. Yet, it very effectively dissolves grease, grime, oil, lubricants, paints, tar, inks and more. Soils are lifted from your hands and captured in the heavy-duty towel. The solution is virtually VOC free making it very environmentally friendly.

SATWIPE Hand Scrubber Towels feature a dual-textured towel with orange scrubber on one side for deeper, faster cleaning. Made from polypropylene material, the towels stay moist for hours allowing for multiple uses.

SATWIPE Hand Scrubber Towels are convenient and economical to use. The compact canister saves space when compared to most competitive products. Each canister has a handy, resealable dispensing top. The hand cleaner/towel combination eliminates the need for paper towels, shop rags or water. Best on grease, paints, tar, oils and lubricants, inks and more.

Part No.	Description	Size	Packaging
SWHST0004	SATWIPE Hand Scrubber Towels Textured polypropylene wipes Half fold perf rolls	12" x 10" (305 x 250 mm)	72/canister; 6 canisters/case
SWHST0004 REFILL	SATWIPE Hand Scrubber Towels Textured polypropylene wipes Half fold perf rolls, refill	12" x 10" (305 x 250 mm)	72/roll; 8 rolls/case

- Hydroentangled nonwoven wipes are strong and durable without the use of binders
- Medium and heavy duty wipes available to allows user to match the ideal wipe for the specific application
- Offers strength wet or dry, no residues or binders left behind
- Highly sorbent without the use of surfactants

Knitted Polyester Gloves

Laundered gloves

Product information

Knitted Polyester Gloves are laundered in a controlled environment. Gloves are full-fingered 100% knitted polyester and will not shrink. The construction of the silicone-free glove allows the wearer to maintain tactile sensitivity and dexterity. Features an elasticized wristband for a secure fit and are color-coded by size for easy identification.

Part No.	Description	Size	Packaging
LGAU0199	2" Cuff White Glove Purple band	XX-Small	12 pairs/bag; 12 bags/case
LGAU0200	2" Cuff White Glove Yellow band	X-Small	12 pairs/bag; 12 bags/case
LGAU0201	2" Cuff White Glove Blue band	Small	12 pairs/bag; 12 bags/case
LGAU0202	2" Cuff White Glove Green band	Medium	12 pairs/bag; 12 bags/case
LGAU0203	2" Cuff White Glove White band	Large	12 pairs/bag; 12 bags/case

- 100% knitted polyester
- Silicone free
- Will not shrink
- Available laundered and unlaundered
