

SAVE TIME. REDUCE COSTS. MAXIMIZE PRODUCTIVITY.

With the acquisition of Pacific Coast Composites, GracoRoberts now offers even faster access to a greater selection of high-performance composite materials—pre-cut, custom-sized, or full roll—all in one place. Our custom cutting and kitting capabilities are designed to streamline your production process, reduce material waste, and improve operational efficiency without sacrificing quality or compliance.

Custom Solutions for Advanced Composite Materials

Short Roll Products:

- As a stocking distributor, we help you skip long waits and large minimum order quantities with our in-stock, pre-cut short rolls—available in 5, 10, 15, and 20-yard lengths with same day shipping

Custom Cutting:

- Custom yardage is available with material cut to exact size—minimum 6" width with $\pm 0.25"$ tolerance. All cuts are labeled and packaged according to OEM specifications and regulatory standards

Kitting Services:

- Reduce labor and material waste by receiving exactly what you need
- Avoid unnecessary thawing and out-time by using material as-needed

Cost-Saving Consolidation:

- Minimize dry ice, temperature monitoring, and thermometer costs
- Multiple rolls combined into a single, efficient shipment
- Packaging designed to fit specific roll lengths and reduce freight footprint

COMMITMENT TO QUALITY AND SERVICE

Pacific Coast Composites and GracoRoberts are dedicated to providing quality products and associated services to satisfy the needs of our customers. We are ISO 9001:2015 AS9120 certified and dedicated to meeting these international quality standards. To verify compliance with the requirements and drive continuous improvement, we engage in routine management reviews, performance analysis, customer satisfaction, and internal audits of our processes.
