

Through the acquisition of UK-based Silmid, and most recently, SkyGeek.com, GracoRoberts is proud to be the largest, fastest, and most technical aerospace specialty chemicals distributor in the world. GracoRoberts now provides the global aerospace community with immediate access to over 100,000 products – with 25,000 in-stock at any given time – an offering that redefines the customer experience and works to ease industry-related supply chain challenges. We have over 200 years of domestic and international aerospace expertise, most notably in the MRO, OEM, and military and defense markets.

As a premier full-service provider of engineered materials, we specialize in the distribution, formulation, and packaging of adhesives, sealants, surface treatments, paints, coatings, composite materials, shop consumables, and more. Our team of experts, including an on-staff Chemist, utilize this expertise to fulfill the needs of thousands of customers across aerospace and other advanced manufacturing markets across the globe.

COMMITMENT TO QUALITY AND SERVICE

GracoRoberts and Resin Formulators are fully qualified to design, manufacture, and distribute products to a variety of industries. We are independently certified to three rigorous international quality standards: ISO 9001:2015, AS9100 (Rev. D) and AS9120 (Rev. B). To verify compliance with the requirements of these certifications, we engage in routine on-site examinations, self-reviews, and audits of our processes.

That, coupled with our standing as the only distributor/manufacturer to guarantee 100% inspection of every order from the point-of-entry to the point-of-shipment, ensures that the necessary controls are in place.
